

**“Him that  
cometh to  
Me I will  
in no wise  
cast out”**

in that coming day when  
“every man’s  
works shall be  
tried.”

The only refuge  
from the coming  
storm of God’s  
righteous judgment  
on a wicked  
world is the Lord Jesus

Christ. Everything else is useless. Won’t you  
turn to Him now, trusting Him alone for your  
salvation?

He has said, **“Him that cometh to Me I will  
in no wise cast out”** (John 6:37).

# The Inventor

When the Duke of Wellington won the battle of Waterloo he was a great hero to his countrymen. He was awarded every honor England could give, and had tremendous influence in the nation. Of course he became the target of all kinds of people seeking favors—people seeking office, or money, or just recognition. One such man came with what he claimed to be a bullet-proof breastplate. The inventor wanted to persuade the Duke to introduce it to the British authorities for adoption by the army.

# The Inventor

“Mr. Temple,” shouted the Duke to his secretary, “tell the sentry outside to load with ball cartridge and come in here to test this breast-plate.”

Before the sentry could load the inventor flew through the door and disappeared. He hadn't

enough faith in his own invention to risk *his* life. Many, many people have their own religious

inventions which they think will protect them from the wrath of a holy God. But, will they

stand the test? Morality, reformation, good works or prayers, none can protect them from

coming judgment.

We read in Hebrews 11:6,

“Without faith it is impossible to please Him.” And

in Acts 4:12: “Neither is

there salvation in any other: for there is none other name

under heaven given among men, whereby we must be

saved.”

Think of it! No tears that you may shed, no works you may perform, no resolution you may make, will serve to shield you

Having letters of introduction from some of the Duke's personal friends, this man called and was shown into

the presence of the great Commander. Though the Duke

was very busy, he listened patiently as the inventor described his

wonderful invention and spoke of its protective value.

Finally, the Duke broke in abruptly with a question: “Have you got the thing with you?”

Quickly the man brought out the breastplate. The Duke asked sharply, “Are you sure it is bullet proof?” “Oh, quite sure, your grace.”

“Put it on then, and go stand in that corner.” Wondering what the Duke meant by this, the inventor at once

obeyed.

## One such

## man came
